

**Town of Morrisville**  
**260 Town Hall Drive, Suite B Morrisville, NC 27560**  
**Request for Estimated Fire Flow Information**

1. A \$150.00 fee is charged by the Town to perform a fire flow test. This fee is charged to meet costs incurred by the Town in performing the test.
2. If recent (less than one year old) fire flow test information is available in the Town's files in the vicinity of the desired test location, the information will be provided to the applicant at no charge.
3. If it is determined that a new fire flow test is needed, a written request and an appropriate fee must accompany the fire flow test request from the applicant prior to the commencement of the test.
4. The Morrisville Fire Department will schedule flow tests after the applicant has submitted a Fire Flow Request form. Flow tests are performed by Fire District personnel, or by a qualified representative of the applicant acceptable to both the Town and Fire Department. To ensure that the system is not operated in a manner that will endanger the water system or its customers, a Morrisville Town or Fire Department employee must be present to operate the hydrants and supervise the procedure. A fee of \$75.00 per hour (minimum 1 hour), will be charged by the Town to witness and supervise the flow test.
5. Information provided is an indication of the water supply characteristics in the immediate area on the date and time noted. The Town and Fire Department does not guarantee that this data will be representative of the water supply characteristics at any time in the future.
